Determines the nature and extent of point and non-point source water pollution and develop water quality management plans.

This award is a partial award of federal funds. Further funding may be provided at a later date.

Purpose: Determine the nature, extent, and causes of point and nonpoint source water pollution.

The purpose of this award is to determine the nature, extent, and causes of point and nonpoint sources of water pollution in the state of Missis

This agreement provides funding to the State of Iowa through the Iowa Department of Natural Resources (IDNR) to carry out its program to n

This agreement provides funding to Iowa to carry out its program to maintain, protect, and improve the water quality of its rivers, lakes, stream

This agreement provides assistance to the state of Iowa's underground storage tank (UST) program. Specifically, this agreement prov

Regulate to reduce hazardous releases and improve implementation, installation, and operation.

This agreement provides financial assistance to the recipient for the implementation of its program to ensure that underground sources of drin

This agreement will provide financial assistance to the recipient for the implementation of its program to ensure that underground sources of c

This agreement is to fund the State of Colorado's Water Quality Management Planning program to improve impaired water and protect unimp

This agreement is to fund the State of Colorado's Water Quality Management Planning program to improve impaired water and protect unimp

This agreement is to fund the State of North Dakota's Water Quality Management Planning program to improve impaired water and protect ur

This agreement is to fund the State of North Dakota's Water Quality Management Planning program to improve impaired water and protect ur

This agreement is to fund the State of Wyoming's Water Quality Management Planning program to improve impaired water and protect unimp

This agreement is to fund the State of Wyoming's Water Quality Management Planning program to improve impaired water and protect unimp

This agreement provides support to the State of Wyoming to implement its nonpoint source management program, focusing on watersheds v

This agreement provides support to the State of Wyoming to implement its nonpoint source management program, focusing on watersheds v

This agreement provides support to the State of Wyoming to implement its nonpoint source management program, focusing on watersheds v

This agreement provides financial assistance to the Town of Glocester, Rhode Island to conduct decentralized wastewater enhancement activities.

This agreement provides assistance to the State of Rhode Island's leaking underground storage tank (LUST) program. Specifically, this agreement will provide assistance to the Massachusetts Department of Environmental Protection in its efforts to reduce diesel emissions.

This cooperative agreement continues the recipient's implementation of its pesticide regulatory and enforcement programs, including, but not limited to, the registration of pesticides.

This cooperative agreement continues the recipient's implementation of its pesticide regulatory and enforcement programs, including, but not limited to, the registration of pesticides.

Massachusetts General Law, Chapter 132B created the Pesticide Board Subcommittee to register pesticide products within the state; the subcommittee's purpose is to protect the public health and the environment.

The objectives of this project is to protect wetlands from degradation or destruction through field mapping, and identifying connected riparian areas.

This agreement funds the Maine Department of Environmental Protection's program to perform site characterization activities such as preliminary investigations.

The purpose of this American Rescue Plan funded cooperative agreement is to advance enhanced monitoring of Particulate Matter 2.5 (PM2.5).

The purpose of this agreement is to provide assistance to Massachusetts Department of Environmental Protection (MassDEP) to implement its brownfields program.

This cooperative agreement continues the recipient's implementation of its pesticide regulatory and enforcement programs, including, but not limited to, the registration of pesticides.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance.

This agreement may fund the participation of the Maine Department of Environmental Protection in activities including but not limited to the remediation of brownfields.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance.

This agreement is to an eligible state to implement a program to provide drinking water program assistance to underserved, small and disadvantaged communities.

This agreement is to fund the State of Maine's Water Quality Management Planning program to improve impaired water and protect unimpaired water.

This agreement is to fund the State of Massachusetts' Water Quality Management Planning program to improve impaired water and protect unimpaired water.

This cooperative agreement is provided to Massachusetts Executive Office of Energy and Environmental Affairs (MA EOEAA) to support the implementation of the EPA's CERCLA Section 128(a) grant program funds activities that establish or enhance the capacity of state and tribal response programs.

This agreement provides funding for the operation of the Penobscot Indian Nation's continuing environmental programs while giving it the authority to manage its lands.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance.

This agreement provides funding for the operation of the Penobscot Indian Nation's continuing environmental programs while giving it the authority to manage its lands.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance.

This agreement will provide assistance to the Penobscot Indian Nation in its efforts to implement air pollution control programs across tribal lands.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance.

This project will allow the Tribe to monitor, study, and research air quality on Passamaquoddy Indian Township land, and conduct outreach or education.

Initial Award. This agreement provides funding for the operation of the Passamaquoddy Indian Township's continuing environmental program.

This agreement provides funding for the operation of the Houlton Band of Maliseet Indians continuing environmental programs while giving it the authority to manage its lands.

This Infrastructure Investment and Jobs Act (IIJA) project will provide technical assistance (e.g., information, training, tools) to businesses to help them develop and adopt source reduction measures.

This cooperative agreement is provided to University of Southern Maine through the University of Maine System to support implementation of the EPA's CERCLA Section 128(a) grant program funds activities that establish or enhance the capacity of state and tribal response programs.

This project provides funding to Gulf of Maine Research Institute (GMRI) to implement its project, which will design, demonstrate, and disseminate best practices for brownfields remediation.

EPA's CERCLA Section 128(a) grant program funds activities that establish or enhance the capacity of state and tribal response programs.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance.

This agreement is to fund the State of New Hampshire's Water Quality Management Planning program to improve impaired water and protect unimpaired water.

This agreement provides funding to NEIWPCC to carry out its program to maintain, protect, and improve the water quality of rivers, lakes, streams, and wetlands.

This project will provide technical assistance (e.g., information, training, tools) to businesses to help them develop and adopt source reduction measures.

This agreement funds the New Hampshire Department of Environmental Services' program to provide technical assistance in support of over 100 brownfields sites.

The purpose of this agreement is to provide assistance to Restore America's Estuaries to implement its project to support the Long Island Sound Estuary Program.

This cooperative agreement is provided to the University of New Hampshire to support implementation of the Piscataqua Region Estuaries Program.

This agreement funds the recipient's program to conduct remedial design/ remedial action oversight activities at the Chlor-Alkali hazardous waste site.

This agreement is to fund the State of New Hampshire's Water Quality Management Planning program to improve impaired water and protect unimpaired water.

This agreement provides funding to Loring Development Authority to implement its project to replace approximately 5,000 linear feet of 8-inch sewer lines.

This agreement provides funding to City of Brewer to implement its project to remediate the Oak Grove sewer sub-system as directed in the 2022 Consolidated Action Plan.

This agreement provides funding to the City of Belfast to implement its project to replace sewer lines as directed in the 2022 Consolidated Action Plan.

This agreement provides funding under the Inflation Reduction Act (IRA) to New Hampshire Department of Environmental Services (NHDES) to implement its project to upgrade the Chaffee Brook Pump Station as directed in the 2022 Consolidated Action Plan.

This agreement provides funding to the Town of Winslow, Maine to implement its project to upgrade the Chaffee Brook Pump Station as directed in the 2022 Consolidated Action Plan.

Rhode Island Department of Environmental Management anticipates the replacement and/or retrofit of identified priority fleets of vehicles used for law enforcement purposes.

Clean Diesel Funding Assistance Program Fiscal Years 2023 & 2024
Vermont Performance Partnership Grant Fiscal Year 2024-2027
Addressing Environmental Justice in the Champlain Valley through Healthy and Energy-Efficient Homes
Building and Expanding Equitable Active Transportation Networks in Northwestern Vermont
Rare, Threatened, and Endangered Wetland Plants and Natural Communities in Vermont
Strengthening Vermont Wetland Restoration and Protection
Monitoring Vermont's Wetlands
Pike Hill Copper Mine Superfund Site Non Time Critical Removal Action
Town of Whitingham Wastewater Treatment Facilities
Particulate Matter (PM2.5) Ambient Air Monitoring Network
Vermont National Air Toxics Monitoring Network
FY24 VTDEC IRA Air Monitoring Grant
Vermont Brownfields Response Program
Vermont Superfund Core Program
Fiscal Year 2022 & Fiscal Year 2023 Drinking Water Lead Testing in School and Childcare Facilities
Fiscal Year 2024 Vermont Underground Storage Tank LUST Prevention Assistance Program
Multipurpose Cooperative Agreement for the Town of St. Johnsbury
FFY24 VT DEC Lake Champlain Basin Program
Vermont Agency of Agriculture, Food, and Markets FY25 FIFRA Cooperative Agreement
Vermont Department of Health TSCA Lead Program and Enforcement
Cleanup Cooperative Agreement for Springfield Medical Care Systems, Inc.
Fiscal Year 2025/2026 Asbestos Hazard Emergency Response Act Grant
BIL Emerging Contaminants Assistance for Small and Disadvantaged Communities Drinking Water Grant Program
Fiscal Year 2024 Beach Monitoring and Notification Program Implementation Grants
Revolving Loan Fund Cooperative Agreement
Cleanup Cooperative Agreement For What Cheer Flower Farm
Rhode Island WIIN FY22 and FY23
Frontline Solutions First! Residents Lead Nature-Based Flood Mitigation and Stormwater Management
Narragansett Bay Estuary Program
Restoring the Ecological Resilience of the Kickemuit River
Southeast New England Coastal Watershed Restoration Program
Rhode Island Diesel Emission Reduction Act Program
Congressionally Mandated Projects - City Of Woonsocket's Lead Removal And Mitigation
Collaborating for Tree Equity in Providence
SWIFR Recycling and Food Waste Infrastructure Program, Providence, RI
Community-Based Lead Poisoning Prevention Project
Refugee Lead Safety
Lincoln Avenue Transmission Rehabilitation to repair, replace, and rehabilitate 30 inch water main
Rhode Island Department of Environmental Management Government to Government
Improving Air Quality for Environmental Justice Communities Disproportionately Affected by Asthma in Providence, RI
Climate & Change: Where Warren Meets The Water
Resilient Riverfront Renewal- Westerly, RI
Understanding Urban Flooding and Finding Community Solutions in Providence, RI
Rhode Island Advancing Resilience in Disadvantaged Communities (SNEP-SOAR)
Updating the Rhode Island Wetlands Program Plan and Enhancing Rhode Island's Salt Marsh Restoration Program
Inflation Reduction Act (IRA) Air Monitoring Grant
IRA -Air Quality Sensor Grant
Rhode Island Brownfields Response Program

This agreement will provide assistance to the Vermont Department of Environmental Conservation (DEC) in its efforts to reduce diesel emissions. This agreement provides funding for the operation of the Vermont Department of Environmental Conservation's continuing environmental programs. The cooperative agreement provides funding to the Vermont Agency of Human Services to improve the health and well-being of low-income individuals. This agreement provides funding under the Inflation Reduction Act (IRA). The agreement provides funding to the recipient, Northwest Region. The Vermont Fish and Wildlife Department (VFWD) in collaboration with the Natural Heritage Inventory (VNH) will advance protections of Vermont's wetlands. Project will build on Vermont's growing wetland restoration successes by enhancing collaboration of wetland restoration partners, developing strategies. To effectively manage wetlands, the VT Department of Conservation wetlands program needs to understand wetland function in the landscape. This agreement funds the Vermont Department of Environmental Conservation's program to perform non time critical removal activities to stabilize wetlands. This agreement provides funding to the Town of Whitingham, Vermont to implement improvements to its wastewater treatment facilities as directed by the DEC. This agreement provides continued assistance to the Vermont Department of Environmental Conservation to operate and maintain its air quality monitoring network. Funding is provided to the Vermont State Department of Environmental Conservation to maintain and operate special air toxics monitoring site at the State of Vermont. This agreement provides funding under the Inflation Reduction Act (IRA) to the Vermont Department of Environmental Conservation (VTDEC) to conduct activities that are not assignable to specific federal funding. The primary objectives of EPA's CERCLA Section 128(a) State and Tribal Response Program grants are to provide financial support to State and Tribal governments to conduct activities that are not assignable to specific federal funding. This agreement provides funding to the Vermont Department of Environmental Conservation to conduct activities that are not assignable to specific federal funding. The agreement provides assistance to the Vermont Department of Health to implement a program of voluntary testing for lead in drinking water at local schools and child care facilities. This agreement provides assistance to the State of Vermont's (VT) Underground Storage Tank Program (UST) in leak detection, leak prevention, and removal. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. Funding this award will help to implement the Lake Champlain Management Plan in the Vermont portion of the Lake Champlain Basin as identified in the plan. This cooperative agreement continues the recipient's implementation of its pesticide regulatory and enforcement programs, including, but not limited to, the implementation of the Vermont Pesticide Act. This agreement provides funding for the operation of the Vermont Department of Health's continuing environmental programs while giving it the flexibility to respond to changing needs. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. This agreement provides support to the State of Vermont Department of Health's (DOH) Asbestos Program in developing and maintaining comprehensive asbestos management plans. This agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) to the State of Vermont to implement resources and activities that are not assignable to specific federal funding. This agreement funds the recipient's beach monitoring program for the upcoming swimming season, including meeting performance criteria established by the DEC. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. This agreement is to an eligible state agency to implement a program of voluntary testing for lead in drinking water at local schools and child care facilities.

WRWC proposes to work with project partners at the City of Providence Department of Planning and Development (Planning) and the Rhode Island Department of Environmental Management (RIDEM). This cooperative agreement is provided to Roger Williams University (RWU) to support implementation of the Narragansett Bay Estuary Program.

Bristol County Water Authority will remove two dams located on the Kickemuit River in Rhode Island. The river drains into Narragansett Bay and the Atlantic Ocean.

The agreement provides financial assistance to the Rhode Island Department of Environmental Management (RIDEM) to conduct environmental remediation projects. The agreement provides funding to Rhode Island Department of Environmental Management (RIDEM). Specifically, the recipient will develop and implement a project to remediate lead paint on the exterior of the City of Woonsocket. This agreement provides funding in the amount of \$775,000 to the City of Woonsocket to implement its project to remediate lead paint on the exterior of the City of Woonsocket. The agreement provides funding to The Nature Conservancy of Rhode Island for the Collaborating for Tree Equity project in Providence, Rhode Island. This agreement provides funding from the Infrastructure Investment and Jobs Act (IIJA). EPA's Solid Waste Infrastructure for Recycling (SWIR) program provides funding to Rhode Island Department of Environmental Management (RIDEM) to implement an education, training and community engagement program. The agreement provides funding to the Refugee Development Center. The recipient will increase awareness about lead safety and decrease lead exposure. This agreement provides funding to the City of Warwick, RI to implement its project to rehabilitate and replace a 30-inch transmission main on the City of Warwick. The agreement provides funding to Rhode Island Department of Environmental Management (RIDEM) to strengthen community connections and engagement. The agreement provides funding to the Rhode Island Department of Health for the Rhode Island Asthma Control Program (RIACP). Specific activities include:

This proposal supports outreach, communication and engagement with residents; the development of a Safety and Climate Resilience Work Plan.

The Southern Rhode Island Conservation District (SRICD) seeks funds from SNEP's SOAR Grants to further implement the Resilient Communities Program.

The City is seeking to conduct an in-depth, community-centered planning and outreach project to understand, model, and develop mitigation strategies for climate change.

The Rhode Island Department of Health (RIDOH) and the City of East Providence are proud to submit this application to re-designate Cresceville Park as a State Park. The Rhode Island Department of Environmental Management (DEM) proposes to finalize its 2020-2025 Wetland Program Plan (WPP) and update its Wetland Inventory. The agreement provides funding under the Inflation Reduction Act (IRA) to Rhode Island Department of Environmental Management for the implementation of the WPP. This agreement provides funding under the Inflation Reduction Act (IRA) to Rhode Island Department of Environmental Management (RIDEM) to conduct activities that are not assignable to specific federal funding. The primary objectives of EPA's CERCLA Section 128(a) State and Tribal Response Program grants are to provide financial support to State and Tribal governments to conduct activities that are not assignable to specific federal funding.

Solid Waste Infrastructure for Recycling (SWIFR)
Establishing a Long Island Sound Eelgrass Collaborative
Norwalk Redevelopment Agency Cleanup Grant for 55 Dr. Martin Luther King Jr. Drive

This agreement provides funding to the Rhode Island Department of Environmental Management to conduct activities that are not assignable. Funding is provided to the Rhode Island Department of Environmental Management to maintain and operate special air toxics monitoring that. This agreement provides continued assistance to the Rhode Island Department of Environmental Management to operate and maintain its air. This agreement provides assistance to the State of Rhode Island's (RI) Underground Storage Tank Program (UST) in leak detection, leak pre. This agreement provides funding to the Providence Water Supply Board to implement its project to install cybersecurity equipment throughou. The Rhode Island Department of Health (RIDOH) has the delegation of authority from the US Environmental Protection Agency (EPA) to carr. This agreement provides support to the State of Rhode Island Department of Health's (DOH) Asbestos Program in developing and maintainin. This cooperative agreement is provided to Roger Williams University (RWU) to support implementation of the Bipartisan Infrastructure Law (E. This agreement provides funding to Providence Water Supply Board (PWSB) to implement its project to replace lead service lines (LSLs) thr. This agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) to the State of State of Rhode Island to implement r. This agreement provides assistance to the State of New Hampshire's Leaking Underground Storage Tank (LUST) program. Specifically, this. This agreement provides funding from the Infrastructure Investment and Jobs Act (IIJA). EPA's Solid Waste Infrastructure for Recycling (SV. This cooperative agreement is provided to the University of New Hampshire to support implementation of the Piscataqua Region Estuaries Pa. This cooperative agreement continues the recipient's implementation of its pesticide regulatory and enforcement programs, including, but not. This agreement provides funding to the Rhode Island Department of Environmental Management (RIDEM) Office of Air Resources (OAR), wi. This agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) to the State of New Hampshire to implement resour. This agreement provides funding to the Town of Grand Isle to implement its project for water and wastewater treatment plant and pump static. The agreement provides funding to the Center for an Ecology-Based Economy. Specifically, the recipient will support the town of Norway, Ma. This agreement provides funding under the Inflation Reduction Act (IRA) to New Hampshire Department of Environmental Services to develop. This agreement provides funding under the Inflation Reduction Act (IRA) to State of Maine, Governor's Office of Policy Innovation and t. This agreement provides funding to the Town of Newport, NH to implement its project to renovate the wastewater treatment facility as directe. This agreement provides funding to the City of Keene to implement its project to to hire the professional services required for the developmen. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a h. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a h. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a h. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a h. This agreement provides funding to the Town of Jaffrey New Hampshire to implement its project to replace water mains located on Wheeler S. The agreement provides assistance to the New Hampshire Department of Environmental Services (NHDES) to implement a program of volur. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a h. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a h. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a h. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a h. This agreement is to an eligible state or tribe to implement a program to provide drinking water program assistance to underserved, small and. This cooperative agreement is provided to the University of New Hampshire (UNH) to support implementation of the Piscataqua Region Estu. This agreement will provide assistance to the New Hampshire Department of Environmental Services (NHDES) in its efforts to reduce diesel. This agreement provides funding to the City of Calais to implement its project to replace sanitary sewer infrastructure as directed in the 2023. This agreement provides funding to the City of Calais to implement its project to install backup power capabilities at the City's water treatment. This agreement provides funding to the Town of Mattawamkeag to implement its project to conduct lagoon sludge dredging as directed in the. This agreement provides funding to the Lake Winnepesaukee Association to implement its project to complete watershed-based plans for 4 su. The agreement is funded under the Inflation Reduction Act and provides funding to the Nashua River Watershed Association for the Fitchbur. The agreement provides funding to Gulf of Maine Research Institute. Specifically, the recipient will build capacity for disadvantaged working w. The main objective is to develop and test a Rapid Floristic Quality Assessment (rFQA) method across New Hampshire (NH) suite of wetland. The agreement provides funding to New Hampshire Department of Environmental Services. Specifically, the recipient will The proposed proje. This agreement provides funding to the Gorham Water and Sewer District, Town of Gorham, NH, to implement its project to replace 37 water. This agreement funds the New Hampshire Department of Environmental Service's program to conduct remedial design activities at the New f. The agreement provides funding under the Inflation Reduction Act (IRA) to New Hampshire Department of Environmental Services for the exp. This agreement provides continued assistance to the New Hampshire Department of Environmental Services to operate and maintain its air q. This agreement provides support to the State of New Hampshire Department of Environmental Service's (DES) Asbestos Program in develop. The primary objectives of EPA's CERCLA Section 128(a) State and Tribal Response Program grants are to provide financial support to State. This project provides funding under the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) for The Valley Environmental Job Training. This agreement provides funding under the Inflation Reduction Act (IRA) to the Connecticut Department of Energy and Environmental Protect. This agreement provides funding to the Town of Stonington to implement its project to upgrade their pump station as directed in the 2022 Cor. This agreement provides funding under the Inflation Reduction Act (IRA) to Connecticut Department of Energy & Environmental P. This agreement provides assistance to the State of Connecticut's LUST program. Specifically, this agreement provides funding for its LUST ( This agreement provides funding under the Inflation Reduction Act (IRA) to South Central Regional Council of Governments (SCRCOG. This agreement provides funding under the Inflation Reduction Act (IRA) to Capitol Region Council of Governments (CRCOG) to develo. This agreement provides funding under the Inflation Reduction Act (IRA) to Connecticut Metropolitan Council of Governments (MetroC. The purpose of this agreement is to provide assistance to the University of Connecticut/Connecticut Sea Grant to implement its project to sup. The purpose of this agreement is to provide financial assistance to the Connecticut Department of Energy and Environmental Protection to im. This agreement provides funding from the Infrastructure Investment and Jobs Act (IIJA). This agreement provides funding from the Infrastru. The purpose of this agreement is to provide assistance to the University of Connecticut, who hosts the Connecticut National Estuarine Resea. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a h.

SRMT-BUI Assessment and Management Action Development Specific to Lake Sturgeon
Pollution Prevention and Waste Reduction
PFAS Pollution Prevention Technical Assistance for Metal Finishers
Sterling State Park - Clearwater Channel and Heritage Trail Restoration
Food Web and Brook Trout Assessment of Lake Superior
FY20 Multipurpose Grant
Great Lakes Sediment Surveillance Program (GLSSP)
FY20 Monitoring Initiative: Fish Contamination, Supplies and Monitoring
LAC DU FLAMBEAU CLEAN AND SAFE WATER PROJECT.
Southeast Rockford Source Area 7 Long-Term Remedial Action (LTRA)
Continuation of the GLCWMP: 2020-2025
The Great Lakes Fish Monitoring and Surveillance Program: Building on Success
American Lead - Long term support activities for Time Critical Removal Action site
FY 21 GLFC Projects
Assistance for Small and Disadvantaged Communities Drinking Water Grant Program - WIIN Grant
Replacing Private Lead Service Lines in Grand Rapids, Michigan
Lead in Water Mitigation Program
2020-2021 Indiana Finance Authority Lead Sampling and Remediation Program for Indiana Schools and Child Care Facilities
Wisconsin DNR FY21 GLRI Focus Area 2: Invasive Species Noncompete
H2Ohio Technical Assistance
Wisconsin DNR FY21 - Allouez Bay Bird Habitat Phase 1
MN DNR North Shore Brook Trout Protection and Restoration
Detect and control emerging invasive plant populations in the Lake Superior Basin

This agreement will provide funding for the Duluth Seaway Port Authority to

This agreement will provide funding to the Chicago Southwest Development Corporation to clean up a Brownfields site located at 3250 S. Kedzie

This agreement funds the recipient's program to conduct several tasks culminating in the Final Remedial Investigation (RI) at the Wade Elect

This Cooperative Agreement provides partial funding in the amount of \$10,000,000 to address thorium contamination which exceeds the Unit

The Wisconsin Department of Natural Resources (WDNR) will support the Milwaukee Estuary Area of Concern (AOC) Citizen Engagement &

This agreement provides assistance to the Great Lakes Fishery Commission to implement its project to support the Great Lakes Restoration

This agreement provides assistance to the Ohio Environmental Protection Agency to implement its project to support the Great Lakes Restoration

This agreement will provide funding for the City of Lawrenceburg, Indiana's Assessment Coalition to inventory, characterize, assess, and con

This agreement will provide funding for the City of Kokomo, Indiana to inventory, characterize, assess, and conduct cleanup planning and con

This agreement will provide funding for the City of Lawrence, Indiana to inventory, characterize, assess, and conduct cleanup planning and co

This agreement will provide funding for the Genesee County Land Bank Authority to conduct a range of activities associated with the planning

This Cooperative Agreement will provide funding to the City of Waukegan to clean up Brownfield site, Fan Steel located at 801 South Market S

This agreement provides assistance to the Trustees of Indiana University to implement its project to support the Great Lakes Restoration Initi

This agreement is to an eligible state agency to implement a program of voluntary testing for lead in drinking water at local schools and child c

This agreement is to an eligible state agency to implement a program of voluntary testing for lead in drinking water at local schools and child care centers.

Great Lakes Fishery Commission will implement seven priority projects: (1) Developing new sea lamprey control strategies; (2) Restoring fish

New York State Department of Environmental Conservation will conduct site characterization in a portion of the Niagara River Area of Concern

The Wisconsin Department of Natural Resources (WDNR) will administer 2 projects that will: 1) identify management actions, across several

The City of Akron will complete design and permitting to remove the Gorge Dam at the upper boundary of the Cuyahoga River Area of Concern

Michigan Department of Environment, Great Lakes, and Energy (EGLE) will fund an Environmental Education Resource Lending Station that

The Michigan Department of Energy, Great Lakes, and the Environment will construct and monitor contaminated sediment capping and habita

The Ohio Department of Natural Resources, Division of Forestry, will acquire and restore wildlife habitat and improve water quality primarily th

The Harbor District, Inc. and partners will install a trash interceptor near the mouth of the Kinnickinnic River. A floating boom will direct trash t

This grant to Health Research, Inc. will support the New York State Department of Health (DOH) to compile and summarize existing fish tissu

This agreement will provide funding to the City of Chicago to clean up a brownfield site in Chicago, Illinois. The Kimball Site is located at 1807

This agreement will provide funding for the City of Terre Haute, Indiana to inventory, characterize, assess, conduct planning and community ir

This agreement will provide funding for Arrowhead Regional Development Commission to inventory, characterize, assess, and conduct cleanu

This agreement will provide funding for the Port of Greater Cincinnati to capitalize a revolving loan fund from which to make loans and subawa

This agreement will provide funding for the City of Green Bay to capitalize a revolving loan fund from which to make loans and subaward to cl

This agreement will provide funding for Washington County, Wisconsin (representing its coalition partners) to capitalize a revolving loan fund

The Alliance of Rouge Communities will restore 122 acres of habitat, eliminate 10 debris jams, and create 10 fish habitat structures in the Ro

The agreement provides funding for New York State Department of Environmental Conservation (NYSDEC) to conduct a study to map and a

The Saint Regis Mohawk Tribe (SRMT) will monitor lake sturgeon in the Grasse, Raquette, and St. Lawrence Rivers within the St. Lawrence River Area of Concern (AOC) at Massena/Akwesasne.

The Michigan Department of Environment, Great Lakes and Energy (Michigan DEGLE) project will provide pollution prevention and waste re

This project will provide technical assistance, including information, training, and tools, to businesses to help them develop and adopt source

Michigan Department of Natural Resources will stabilize 2,320 lineal feet of embankment along the Clearwater Channel to provide resiliency, &

Michigan Department of Natural Resources will conduct two projects in support of Lake Superior FY 21 Cooperative Science and Monitoring

This agreement contains activities that complement existing environmental program grants. Specifically, the recipient will use this multipurpose

This project supports the Great Lakes Restoration Initiative (GLRI) and the Great Lakes Water Quality Agreement, pursuant to Clean Water A

This agreement provides funding to the State of Indiana Department of Environmental Management to carry out its program to maintain, prote

The U.S. Environmental Protection Agency is issuing multipurpose State and Tribal Assistance Grants (STAG) to federally recognized Indian

This Cooperative Agreement funds the Recipients program to conduct Long-Term Remedial Action which includes groundwater (GW) contain

Central Michigan University (CMU) will re-create a site selection tool, which houses geospatial data for each wetland site and feeds data and

This project supports the Great Lakes Restoration Initiative (GLRI) and the Great Lakes Water Quality Agreement, pursuant to Clean Water A

This agreement provides funding to the Indiana Department of Environmental Management (IDEM) program to conduct remedial action at the

Great Lakes Fishery Commission will implement three priority projects: (1) Sea Lamprey Control; (2) Supplemental Controls for Sea Lamprey

This agreement is to an eligible state to implement a program to provide drinking water program assistance to underserved, small, and disadv

The agreement assists Grand Rapids, Michigan to develop and implement improvement investments through projects that will reduce lead ex

The agreement assists Elevate Energy to develop, implement, and administer a Lead in Water Mitigation Program for licensed child care prov

This Grant agreement assists Indiana Finance Authority to develop and implement improvement investments through projects that will reduce

Wisconsin Department of Natural Resources (WDNR) will administer 2 projects that will: 1) restore, enhance, and protect 997 acres of Great

Jackson County Water Company Garrett Ridge- Ohio FY21
OAI's Chicago Greencorps-Brownfields Job Training Partnership

Michigan Department of Natural Resources will work to detect, survey, and treat Hemlock Woolly Adelgid in western Michigan. The project will build on progress made under a previous Leech Lake Band of Ojibwe Wetland Program Development Grant (WPDG) and the City of Erie, Pennsylvania will install one crate-style mobile trap and one litter boom in Garrison Run, a stream connected to Lake Erie's F. The Ottawa Soil and Water Conservation District will improve the aquatic habitat quality of Turtle Creek in the Maumee Area of Concern through this agreement. This agreement will provide assistance to the Coalition for Sustainable Initiatives (CFSI) in its efforts to reduce diesel emissions and exposure. This Project will replace 67 diesel trucks with new diesel trucks meeting current U.S. EPA emissions standards as a Phase I/Phase II project. The Wisconsin Department of Natural Resources (WDNR) will administer 2 projects (Fish Passage Culvert Crossings in Little Balsam Creek). This agreement funds the recipient's Superfund Remedial Response program to conduct further delineation of the vapor intrusion (VI) area of concern. The Oneida Nation will work on establishing core capacity to promote healthier indoor air quality through indoor air quality home assessment. The Northeast Ohio Regional Sewer District (NEORS) will stabilize 3,500 linear feet of West Creek within the Cuyahoga River Area of Concern. Lucas Soil and Water Conservation District will restore 3 acres of land in the Maumee Area of Concern (AOC). The Minnesota Pollution Control Agency (MPCA) will redirect a storm sewer that currently drains directly from the City of Two Harbors into Lake Superior. The City of Akron will complete designs for the removal of lowhead dams that are currently discouraging the passage of fish and encouraging fish passage. Assistance award's purpose: This agreement contains activities that complement existing environmental program grants. The recipient will restore a degraded stream at Hill Ditch in the Maumee Area of Concern (AOC) by increasing stream sinuosity, stabilizing banks, and improving habitat. The Ottawa Soil and Water Conservation District will improve the aquatic habitat quality of Packer Creek in the Maumee Area of Concern through this agreement. This agreement may fund the participation of the recipient in activities including but not limited to the review of remedial investigation and feasibility studies. This agreement will provide funding for Rural Action to inventory, characterize, assess, and conduct cleanup planning and community involvement. This agreement will provide funding for the Washington County Community Development Agency to inventory, characterize, assess, and conduct cleanup planning. This Cooperative Agreement will provide funding for Southcentral Michigan Planning Commission (SMPC) to inventory, characterize, assess, and conduct cleanup planning. This agreement will provide funding for Marquette County, Michigan (MI) to inventory, characterize, assess, and conduct cleanup and reuse planning. This agreement will provide funding for Kalamazoo County, Michigan to inventory, characterize, assess, and conduct cleanup planning and community involvement. This agreement will provide funding for the City of Union City to inventory, characterize, assess, and conduct cleanup planning and community involvement. This agreement will provide funding for the Town of Clarksville to conduct a range of activities associated with the planning, assessment, and implementation of a wetland restoration project. The City of Toledo will restore 0.2 miles of shoreline and riparian corridors and 1.2 acres of coastal wetland and habitat in the Maumee Area of Concern. This agreement will provide assistance to The Wisconsin Department of Health Services in its overall efforts to develop and implement adaptive management plans. The Ohio Environmental Protection Agency will implement the Fish and Benthos Improvements with Urban Chloride Reductions project in collaboration with the Michigan Department of Natural Resources in collaboration with the Michigan Department of Natural Resources. The Minnesota Pollution Control Agency will evaluate habitat improvement of the St. Louis River Area of Concern through collecting and analyzing data. Wood County, Ohio will construct two-stage channel modifications to .28 mile of Dry Creek and construct a wetland on approximately 20 acres. Cuyahoga County Port Authority will install 1000 linear feet of green bulkhead in the Cuyahoga River. This project will install 0.5 acres of wetland. The agreement provides funding to the Wisconsin Department of Natural Resources. Specifically, the recipient will complete a pre-design investigation. Indiana Department of Natural Resources will partner with Lake County Parks, and The Nature Conservancy to remove and control woody areas. The purpose of this assistance agreement is to create the framework of a new functional assessment tool that can be used to evaluate wetland health. The purpose of this assistance agreement is to increase adoption of voluntary wetland restoration practices to help address water-related issues. The purpose of this assistance agreement is to enhance wetland awareness, training, mapping, conservation, restoration, monitoring, regulation, and enforcement. Michigan's Wetlands Program has identified the need to improve protection and restoration of wetland and stream connectivity, as well as to enhance wetland health. This project supports the Great Lakes Restoration Initiative (GLRI) and the Great Lakes Water Quality Agreement, pursuant to Clean Water Act. Brown County Land & Water Conservation will work with large dairy farms located primarily along the mainstem of the Lower Fox River to improve water quality. Fox-Wolf Watershed Alliance (FWWA) Inc. will work with their Subawardee Calumet County (\$450,000) to address legacy phosphorus in the Outagamie County will work with Lower Fox partners to install five acres of Agricultural Runoff Treatment System (ARTS) enhanced with Phragmites. Hobart and William Smith Colleges will work with their Subawardee Yates County Soil & Water Conservation District (\$132,600) to create a wetland. Ohio EPA will subaward to the City of Sylvania to implement stream restoration in Harroun Park in Lucas County, Ohio. The purpose of the agreement is to improve water quality. City of Mentor, Ohio will collect, slow, and filter nonpoint source runoff before it reaches the Chagrin River and Lake Erie. Delta Institute will partner with their Sub-awardee City of Hobart to restore 0.4 miles of the Duck Creek Tributary, a segment of the Detroit River. The Fox-Wolf Watershed Alliance (FWWA) will partner with the Village of Wrightstown and their Subawardee Outagamie Land Conservation. This project will work cooperatively with the local drainage districts as well as the Oneida Tribe to reestablish riparian habitat in the Lower Fox River. This agreement funds the recipient's program to performed consistent with regulations and assist with community education, technical assistance, and monitoring. WDNR will perform a Groundwater Investigation to check for the contaminate Per- and Polyfluoroalkyl Substances (PFAS) at the site. This agreement funds the recipient's program to performed consistent with regulations and assist with community education. MPS will create a system to educate and train school staff and the community in how to use newly constructed green spaces, outdoor classrooms, and trails. Michigan City Sanitary District (MCSD) will construct the Adams Park Stormwater Wetland Restoration project to create and enhance a total of 10 acres of wetland. The Huron-Clinton Metropolitan Authority will partner with the Wyandot of Anderdon Nation to implement green infrastructure measures at Lake Erie. The Detroit Water & Sewerage Department (DWSD) will construct seven bioretention cells that total over 45,000 square feet of surface area. The Buffalo Niagara Waterkeeper will construct an infiltration trench and floodplain benches throughout a 2.23-acre area in priority locations on the Buffalo River. Wayne County Soil and Water Conservation District will enhance 170 acres of habitat within a New York State Beaver Creek, Wildlife Management Area. New York State Office of Parks Recreation & Historic Preservation (OPRHP) will provide invasive species control and habitat enhancement. This project will quantify the amount of organic waste diversion resulting from the installation of an Anaerobic Digestion (AD) system that is operating. This project supports the Great Lakes Restoration Initiative (GLRI) and the Great Lakes Water Quality Agreement, pursuant to Clean Water Act. This agreement funds the recipient's program to provide technical assistance, contractor oversight and public education during a PFAS remediation project. This agreement is to an eligible state or tribe to implement a program to provide drinking water program assistance to underserved, small and rural communities. This project provides funding for OAI, Inc. to recruit, train, and place unemployed and underemployed residents of the City of Chicago in environmental jobs.
